

## TIP Therapeutic Intervention Program

## **ERMHS Student**

A student receiving special education services and has (or will have) counseling services identified in their IEP.

Sierra Vista Clinician will assess student and make recommendation to case manager. IEP team will convene to discuss results of assessment and add Sierra Vista counseling services to the IEP if appropriate. The Clinician will provide the social/emotional goal. Counseling services will begin once identified on IEP

Step 1: The case manager and/or psychologist will obtain signed referral form and consent for assessment.

IF

 $\rightarrow$ 

IF

There is already an IEP in place, the case manager, designated by the school, will change the service provider to Sierra Vista and provided a signed referral form within 72 hours to the Sierra Vista Clinician.

Go to Step B

Once the services are updated on the students IEP, the Sierra Vista Clinician will open the case up for counseling services. Per school policy the clinician may also have access to SEIS.

Clinician will attend all IEP's for the student and provide social/emotional goals as needed.
